Fundamentals of  
Visualization & Design with  
Tableau

Essential Dashboarding &  
Storytelling Techniques

Advanced Visualizations  
using Tableau

University  
of Colorado  
Boulder

Dec 21, 2025

**Mark Lizotte**

has successfully completed the online, non-credit Specialization

# Data Visualization & Analytics in Tableau

Learners gained the skills necessary to become an expert data visualizer - creating both basic and complex charts in Tableau, understanding the underlying data structure of unknown data sets, and implementing advanced tools capable of forecasting, clustering and showing trends. Learners completed a capstone project at the end of the Specialization to apply their new knowledge and skills.

Kenneth Miller, M.S.  
Adjunct Faculty | Senior  
Data Analyst  
Marketing, Data &  
Analytics

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
